NOTICE

Many changes in the Food Stamp Program will take place in the next few months. The first major change will take place on January 1, 1979. As of January 1, 1979, people who are eligible for food stamps will no longer have to pay any money in order to receive their coupons.

In the past people who get their food stamps in the mail had to mail money to the local food stamp office before the stamps were mailed to them. For instance a person who had to pay $70.00 for $90.00 worth of food stamps had to mail $70.00 to the local food stamp office with a special form before the $100.00 worth of stamps was mailed back. This person received $30.00 worth of bonus food stamps ($100-$70.00). Beginning on January 1, 1979, this person would receive $30.00 in bonus coupons directly in the mail, without having to send any money or any special forms to the local food stamp office. The money previously used to buy food stamps would be used to purchase food beginning January 1, 1979.

Food stamps, for persons who get them regularly in the mail, will be mailed on the first five working days of each month.

If you have any questions about how this will affect your food stamp case please call your local food stamp office. Phone 352-7125. 11-30-4t

A Sweet Lady

There is a sweet little lady
that lives here in town,
Wears a smile and never a frown,
Her personality is hard to beat,
Always the same to everyone she meets,
Yes, always sweet to one and all,
When talking to her makes one feel very tall,
I often see her on the street,
Then at Bessie's Snack Bar where she likes to eat,
She enjoys coming in Bessies and sitting down,
Having a chat with Bessie and seeing her friends that's always around,
I enjoy talking to her every time we meet,
A sweet personality, every word she speak.
Now this and I will close,
She is called Miss Frankie wherever she goes.

The success of our money-making project, Kits and Kaboodles, is due in part to the hard work of this member who was chairman of the committee. The Member of the Month for November is the treasurer of our chapter, Juanita Patterson.

ACHS Students Learn of College Opportunities

On Tuesday, December 5 a group of junior and senior students at Appomattox County High School attended a group guidance session to learn of opportunities available at Longwood College. Nicki Fallis, admissions assistant at Longwood, spoke to the gorup of interested students. She explained admission procedures, curriculum offerings, financial aid, and campus life. Special guests at the session were members of the Appomattox Chapter of the Longwood Alumni Association.

The Guidance Department of ACHS invites many college admissions directors to the school to inform students of post high school education opportunities. This method of presenting information to the students is only one method used by counselors as part of the Title IV-C Model Guidance Program.

Holiday Drivers Need to Keep Eye On Speedometer

Holiday drivers need to keep an eye on their speedometer and a light foot on their accelerator to prevent highway deaths and injuries this Christmas.

"Failure to observe the posted speed limit and to ease off the gas pedal when faced with adverse driving conditions is one of the biggest contributing factors to motor vehicle collisions," according to John T. Hanna, director, Virginia Department of Transportation Safety.

Last year in Virginia some 18,000 crashes occured in which there was some speed violation, either speed in excess of the statutory limit or speed too great for the existing conditions of the road, traffic, weather, vehicle or driver.

"Because so many people have a tendency to rush through the holiday season motorists need to be careful their fast pace doesn't carry over to their driving," said the safety official. "In 1977 a total of 12 people died on Virginia's highways during the Christmas holidays (beginning 6 p.m. December 23 and ending at midnight December 26). Excessive speed increases an individual's chances of being involved in a tragic accident by making it more difficult for the driver to stop safely and maintain vehicle control."

Speed reduction is especially crucial in the event of a white Christmas or a rainy one. Motorists must remember posted speed limits are for ideal conditions only. In bad weather vehicle speed should be well under that for dry pavement.

Dashing through the snow is extremely dangerous. According to the American Trucking Association stopping takes three times the distance on ice, even with reinforced tire chains, than it does on dry pavement. At 20 m.p.h. on dry pavement stopping takes 21 feet, but with regular tires on glare ice at 20 degrees temperature it will take almost 200 feet to stop.

Excessive speed on wet pavement can create similar problems with stopping as well as another phenomenon called "hydroplaning." Hydroplaning means the vehicle's tires lose contact with the road and the vehicle "water skis" along on a thin layer of water between the tires and the road. This loss of control can be avoided if motorists reduce their speed when traveling in wet weather and maintain good tires with sufficient tread.

"Holiday drivers need to take time to live. Traveling at a safe speed, spending a few extra seconds buckling safety belts before driving and a few extra minutes removing all snow and ice from the vehicle hood, trunk glass, roof and lights for better visibility are just a few ways to prevent tragedy this yuletide season. Drivers who devote extra time to safety can save a lifetime in the long run," concluded Hanna.
